

Slip Resistive Additive (SRA)

Ceramic spheres, for use with solvent borne sealers.

DESCRIPTION

Slip Resistive Additive is a revolutionary ceramic sphere for all solvent borne, film forming coatings where a slip resistive profile is required. By simply adding this white powder you will improve the slip resistant profile of the finished coating.

ADVANTAGES

Slip Resistive Additive delivers the following advantages;

- Adds a slip resistant profile to Crommelin[®] Sealers and Coatings.
- Colour & size less visible in clear coatings than silica aggregates.
- Increases compressive strength.
- Will not settle when added to sealer.
- Improves impact resistance.

AREAS OF USE

Slip Resistive Additive is suitable for use in the following areas;

- Driveways
- Pathways
- Steps
- Ramps
- Wet Areas
- Floors

SUBSTRATES

Slip Resistive Additive is suitable for application on;

- Concrete

TECHNICAL DATA

Width:	100 ± 10% microns (average)
Weight:	0.32kg/1L
Consumption:	125g / 15L (This can be varied depending on desired profile.)

APPLICATION

- Add the SRA at the amount required to achieve the desired profile.
- It is essential to ensure the SRA is poured slowly into the sealer whilst stirring.
- Maintain stirring during application to ensure an even distribution of the SRA and an even finish.
- Apply sealer with SRA as per specific sealer application directions.

PRECAUTIONS

- A test patch should always be carried out.
- Do not apply too heavily as sealer performance will be affected.

TRANSPORT AND STORAGE

- Size: 125g, 20kg
- Weight: 125g, 20kg
- DG Class: N/A
- Flash Point: N/A
- UN Number: N/A
- Cool and Dry Storage

SAFETY AND FIRST AID

Slip Resistive Additive (SRA) Data Sheet is available from Crommelin® upon request.

Safety

- Ensure good ventilation and avoid breathing vapours.
- Avoid skin and eye contact. Wear gloves and eye protection. Remove splashes on skin immediately and remove contaminated clothing.
- Keep out of reach of children.
- Keep container sealed when not in use.
- Do not swallow.

First Aid

- If poisoning occurs, contact a doctor or poisons information centre: Ph. 13 11 26.
- If swallowed, do not induce vomiting. Give a glass of water to drink.
- If in eyes, hold eyes open and flood with water for at least 15 minutes.
- If not breathing, apply artificial respiration.
