## COLOUR INDICATIONS

Colour indications may vary from actual production standards. Where colour matching is critical, an applied sample is recommended. Custom colours and colour matching are available at an additional cost. Additional lead times are required for custom colours and colour matching.

Pigment dosage will be dependant on colour selection. Light colours may require additional quantities of pigment.

Our technical staff, in conjunction with one of our network of applicators, would welcome the opportunity to inspect your floor and to assist with the design of a suitable Sika Flooring System, tailored to your needs. For further information, please contact your nearest Sika office.
